EDUCATION

Ballari Institute of Technology and Management (BITM)

Master's in Computer Application (CSE-DS) - **CGPA: 8.5**

Nov 2023 - Present

Ballari, Karnataka

BKG PU College

Bachelor's in Computer Application - **Percentage: 86%**

Jul 2017 - Oct 2020

Hospet, Karnataka

COURSEWORK / SKILLS

- Computer Networks
- Deep Learning
- Database Management
- Python Programming
- PowerBI
- Machine Learning
- SQL / NoSQL
- Data Structures

PROJECTS

Fraudulent Transactions Detection | Python, Machine Learning, Fraud Detection

- Developed a model to detect fraudulent transactions with **98% accuracy**.
- Reduced false positives by **30%** using feature engineering techniques.
- Processed datasets of over **1 million transactions** for training and evaluation.
- Deployed the model for real-time fraud detection, enhancing detection speed by **25%**.
- [GitHub Repository](#)

OPEN SOURCE CONTRIBUTION

Lip Reading - Dec 2023

- Developed a CNN-based lip-reading model to recognize lip movements from silent video frames.
- Achieved **94.7% accuracy** in recognizing speech from visual input.
- Resolved critical bugs, improving model performance and reducing processing time by **15%**.
- Preprocessed video data through frame extraction and audio-visual alignment.
- [GitHub Repository](#)

TECHNICAL SKILLS

Languages: Python, Java (Basic), SQL, NoSQL

Developer Tools: VS Code, Git, Jupyter Notebook

Technologies/Frameworks: NumPy, Pandas, Matplotlib, TensorFlow, PyTorch, Data Cleaning, Exploratory Data Analysis, Data Visualization

CERTIFICATIONS

- Data Science - IIT Madras
- Deep Learning - Udemy
- Power BI - Workshop
- AWS - IIT Madras
- MongoDB Basics
